

Information Technology Systems Combination Surge Arrester

CLASS 3

Surgeguard TELE/FAX

Combined 6.5kA (8/20) power and 10kA (8/20) telephone line protection for modems, fax and cordless phones using RJ11 connectors.

- Protects both power and telephone lines
- Designed to withstand surges of 5 kA on the power lines and 10 kA on telephone lines
- Easy to install (no additional wiring required)
- 2 x 15 Amp protected power sockets
- 1,5 m power cable

Please note: For these Class 3 devices to function correctly in terms of SANS 10142-1:2006, additional Class 2 surge arrestors must be installed (upstream).

Installation
