

# DEHN – Safety with Tradition.

Production around 1930.

Centre of lightning and surge protection and safety.

Production of safety equipment in 2007.

At first there was the idea of diverting lightning to the ground without endangering home or people. This was the challenge, Hans Dehn met in his company founded in Nuremberg in 1910. Since the beginning of the 1920s DEHN has produced lightning protection and earthing components. Over the years, a diversified product range for external lightning protection came into existence.

But not only protecting systems and buildings against the effects of lightning, but also the protection of people installing and maintaining electrical systems became a central requirement.

In 1952, DEHN + SÖHNE amplified their product range by safety equipment for working at electrical installations.

The entering of electrical and electronic equipment in industries, administrations and households showed soon, that conventional lightning protection was not sufficient to protect these devices. With the experience of decades in the field of external lightning protection, the necessity of surge protection came up. Therefore, the first generation of surge protective devices (SPDs) by DEHN + SÖHNE was introduced to the market in 1954.

Today, the location in Neumarkt, Germany, unifies research and development, production, sales and administration in the fields of lightning protection, surge protection and safety equipment.

With more than 750 employees, a process-orientated management, laboratories, computer-controlled production lines and a wide product range for safety, DEHN + SÖHNE is a worldwide recognised and leading family-owned company.

# DEHN – Products for Safety.

In the course of its history of nearly 100 years, the initial handicraft business has become a worldwide operating industrial company with three product ranges:

Lightning Protection

Surge Protection

Safety Equipment

DEHN + SÖHNE is a booster of technological progress. We do intensive, application-related research work for customer-orientated solutions. The performance parameters of our impulse current test laboratories are unique worldwide.

With the experience in research and development, production, quality assurance and application of components for lightning and surge protection as well as safety equipment, we have influenced national and international standardisation considerably. Our most important aim is to stipulate a maximum quality and safety level. This has made DEHN + SÖHNE known as a brand of quality far beyond the borders of Germany.

# DEHN – Quality and Safety.

DEHN + SÖHNE produce more than 3,500 devices and components for your safety. Our products protect human lives and material assets. High quality requirements and the awareness in the treatment of the environment is therefore a must.

In order to ensure this and make it also transparent for you as our customer, the company was certified in accordance with DIN EN ISO 9001 and DIN EN ISO 14001. Annual examinations and complete reaudits every three years show the central significance of quality and environmental management in the company.

We cooperate intensively with international and national standard committees and take part in congresses worldwide. We are active members of the "Ausschuss für Blitzschutz und Blitzforschung" (ABB) [Commission for Lightning Protection and Research] and in the "Verband Deutscher Blitzschutzfirmen (VDB)" [Association of German Lightning Protection Companies]. Thus, we foster nationally and internationally the aims and further development of lightning protection. Our aim is to provide sophisticated, customer-orientated solutions to increase the economy of companies. Only those who are accessible can be quick, flexible and efficient.

We provide you with the necessary safety.

# DEHN – Global Safety.

DEHN + SÖHNE supplies equipment and provides services covering lightning and surge protection worldwide. We have committed ourselves to continuous market presence, productivity, product quality and delivery in time. Developing innovative and market-related products requires closeness to our customers. They benefit from our strength in innovation, flexibility and short decision processes.

Sustained success in the market is only possible if local conditions are considered.

Our market presence: 17 sales offices and 4 outlets in Germany, subsidiaries or representatives in more than 70 countries. Besides continuous participation in international fairs, DEHN + SÖHNE offers extensive technical support and customer service on the spot. Additionally, we organise seminars and lectures, and supply detailed information and designing material. We contribute to specialist publications and carry out continuous PR work.

Safety is not just related to the features and benefits of our products but can also be applied to the relationship with our customers and suppliers.

This means for our partners that their problems that need to be solved are in safe hands.

Safe verifying of isolation from power supply with DEHN equipment!

Safe earthing and short-circuiting with DEHN equipment!

Safe cleaning under live conditions with DEHN equipment!
